Extract from the Report of the Special To umittee -0N-Martini-Henry breech-loading

RIPE. Presented to both Houses of Parliament by Command of Her Majesty.

[O. 299, page 4.]

CUNPOWDER,

"The powder first tried by the Committee in the BoxerHenry cartridge, and of which they entirely approve, is
know as 'Cartis and Harvey, No 6.' Several other
descriptions manufactured at the Government Factory,
Waitham Abbey, have also been tried, but have not
afforded the same uniform accuracy of shoot ng.

There appear to be difficulties, confied, it is believed,
to the question of expense, in producing a powder at
Waitham Abbey in all respects equal to 'Ourlis and Harvey, No 6,' but the Committee, keeping in view the importance of maintaining the great accuracy of shooting
of the Martini-Henry rids, recommend that no powder
should be used for its ammunition that does not give could be used for its ammunition that does not give results at least equal to those obtained in the Co mittee's experiments, whether such powder be obtaine from the Government Factory or from the trade."\*

\* Mesers Curtis and Harvey's powder was employed of Mr Henry during the computition for accuracy of booting and the results then attained were satisfactory, he Committee have, without mak up tried of the power of other manufacturers, continued its use as a standard.

CURTIS & HARVEY take this opportunity of sending an extract from the Report of the Special Committee on the most suitable rides for the Service and as THEIR GUNIOWDER is so highly commended they think it desirable to communicate the information to their customers and friends. The recommendation equally applies to all marks and descriptions.

responsibilities thus evolved, and while conscious of the difficulties surrounding the early working out of self-government in a small and crude community, we have still the most abiding faith in the capacity of the people of British Columbia for self-government. Of course very much must depend upon making a careful and judicious start under the new system. Undoubtedly much will depend upon the Lieutenant-Governor. Should he be a man of practical experience and administrative ability, and should he be so fortunate in the first instance as to be surrounded with moderate and discreet advisors, no very seri-ous difficulty need be apprehended. But it must be obvious that the new Governor will not be able to approach the first work of organization under the most favorable circumstances. He will not possess the inestimable advantage ot a personal knowledge of men and parties. And it is just here where one is led to wish that it were possible to retain the present Governor at the helm until the good ship could clear the breakers and tide rips which threaten her in the outset, and get safely out to sea. The rare ability and statesmanship displayed in conducting the Colony to the portals of Confederation and the intimate knowledge of men and parties acquired during his successful administration would seem to point to His Excellency as eminently fitted for the delicate and difficult task of setting the new machinery fairly in motion. But this we can not hope for. It could not well be expected that Governor Musgrave would even temporally occupy the position of Lieutenant Governor when so well end titled to promotion at the hands of his Sovereign in consideration of the import portant services he has been enabled to render in the great scheme of empire. Perhaps all that can justly be expected of His Excellency now is that he will, as far as may be proper, give the incoming Governor the benefit of his experience in this Colony. And here he can do much. His intimate knowledge of the country and its people will enable him to make suggestions—even if the rules of the service do not permit more which would be of incalcuable value to the new Governor in forming the neces-sary machinery to work out Responsible Government. Asit is the name of Governor Musgrave will be intimately and CHAMPAGNE honorably identified with the history of British Columbia; but the Colony will have an additional reason to cherish his memory if he shall employ the opportunity still remaining in contributing to a judicious formation of the new Government. Where political parties can soarcely be said to have an existence—

MARAVILLA COCA.—No breakfast table is complete without this del beverage.—The Globe says, 'Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs Taylor Brothers discovered the extraordinary qualities of 'Maravilla' Cocoa. Adapting their periect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate arcma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. ### Death of Dugald McTavish.

We regret to have to announce the sudden death at Montreal on the 24 h ult of Mr Douglad McTavish, late Chief Factor of the Hodgon Bay Company. He was seized with illness while taking a bath and summoded assistance but cied before he could be conveyed to his room in St Lawrence Hall. An

veyed to his room in St Lawrence Hall. An inquest was hald and a verdict returned of disease of the heart.

Mr McTavish, who has been entrusted with the discharge of the most important offices in the service of the Hadson

Bay Company, was a man of great intelligence, plain and unpretenious in his maner, and possessed of sound common sense.

He entered the service is 1833, passing he entered the service is 1833, passing his first winter at Moose Factory; from thence he went to Lake Superior, where he spent another year; thence to Lachine, where he remained until 1838 under Mr Keith. he remained until 1838 under Mr Keith. In 1838 lie was transferred to the Columbia District, crossing the Rocky Mountains by the Boat Eccampment to Fort Vancouver, where he acted as accountant for several years, making two or three vovages during that period to and from York Factory on Hudson Bay with the annual accounts of the Columbia District, which in those days had to be incorporated with those of Rupert's Land. In 1845 he was sent to Son Francisco to look after the business in consequence of the death of Chief Trader W G Rae, the Company's agent there, and returning in Company's agent there, and returning in 1846 he received his promotion to the rank Chief Trader and was transferred to Honof Chief Trader and was transferred to non-olulu, where he represented the Company until 1852. In 1852 he went to England on forlough receiving his promotion to the rank of Chief Factor, and in 1853 he was respruriougn receiving his promotion to the rank of Chief Factor, and in 1853 he was reappointed to Fort Vancouver to assist the late Chief Factor Orden in the management of the business. On the death of Mr Ogden in 1854, Mr McTavish held charge of the Department of the Calenhia and the in 1854, Mr McTavish held charge of the Department of the Columbia until the discovery of gold on the Fraser River in 1858 when he was directed by the late Sir George Simpson to repair to this place and essist Governor (now Sir James) Douglas and Chief Factor Work in the management of the Company's business here and finally succeeded them as the chief representative of the Company at Victoria. In 1862 he was succeeded them as the control of the Company at Victoria. In 1862 he was sent to Washington to observe the proceedings of the Commission sitting there to deings of the Commission sitting there to de-cide on the claims of the Company in Ore-gon under the treaty of 1846, the settlemen of the claims of the Hudson Bay Company requiring the presence of a man thoroughly acquainted with the business and who possessed besides the capacity of representing it properly. He discharged the duties devolvproperly. He discouraged the duties devolving on him in a most satisfactory manner. The labors of the Commission terminated about two years ago by the decision of all points in dispute. Immediately thereafter Mr McTavish left for London, but had scarcely been a month there when he was recalled to take the place of Chief Factor in Montreal in the room of Mr Donald A Smith, who in the room of Mr Donald A Smith, who was about to be dispatched to Red River by the Canadian Government in the winter of 1869-70, to act as Commissioner in the investigation of the troubles that had arisen there. Here Mr McTavish has remained until his death, which we now record. The Hon Isaac Buchanan of Hamilton, an old friend of the deceased, was on the spot at the time of his death, and with the officers of the Hudson Bay Company made arrangements for the functal.

INDUSTRIAL EXHIBITION .- By reference to our advertising columns it will be seen that the eighth Industrial Exhibition of the Mechanics' Institute of San Francisco will open on August 8th. The exhibition building covers an area of eleven thousand superficial feet, and the arrangements for the comfort and amusement of visitors are said to be very

ments for the funeral.

ARRIVAL OF THE PRINCE ALFRED .- J Rosenfield's steamship Prince Alfred, Captain Fred Sholl, from San Francisco on the 12th June, arrived sesterday afternoon, bringing 120 passenge s and 175 tons of freight. The passengers report a delightful trip and speak high of the Captain and officers and of the food provided.

THE NORTH PACIFIC. - This new vessel. which has been recently completed by San Francisco workmen, is now finished and equipped for sea and will make a trial trip agaipped for sea and will make a trial try
around the Bay to morrow. On the occasion of testing her engines she developed
unnsual speed, making upwards of eighteen
miles an hour without extraordinary effort.
She will sail for Victoria, B C, direct on
Wednesday, and on account of her superior
accommodations will doubtless leave with a
full passenger list. The North Pacific reflects credit on San Francisco shipbuilders, and her entire outfit, which is both elegant comfortable, has been furnished by our own dealers.—San Francisco Call.

DEATH .- We feel pained to have to announce the death yesterday of James S Mc-Millan, eldest son of Councillor James E McMillan of this city. The deceased young man came to this city. The deceased young man came to this colony in 1863 with his parents and learned the trade of printing in the Chronicle office. Subsequently he went to San Franciscoland was actively engaged in the prosecution of his business when he was attacked with consumption. ## CHURCH AND STATE.

Church and state.

In the House of Commons, on the 2th, Mr Miall, member for Bradford, brought forward his motion for the disestablishment of the Church of England. Before he rose, however, Mr Hardy took the opportunity to present a petition, signed by 21.700 of the Bradford constituents, against the motion for disestablishment. On rising Mr Miall was received with cheers from below the gangway. He delivered an able and argumentative speech, characterized by a spirit of earnestness and moderation thoughout, and was listened to with respectful attention by a House composed for the most part of men strongly opposed to the measure. The speech, is Mr Gladstone said in replying to it, drew forth the most just eulogiums from every quarter of the House; and Mr Gladstone's reply is regarded as a sort of tacit admission of impending disestablishment. In reply to an intimation that he had obtained his knowledge of the feeling of the country upon the subject from Blue-books, Mr Miall informed the House that for ten years he had been a Dissenting minister. As has already been made known by telegraph, the resolution was negatived by a vote of 374 to 89, but the largeness of the majority does not close the eye of the nation to the obvious inevitability of ultimate disestablishment. It was a noticeable coincidence that the very time the Commoners were listening to Mr Miall's proposition to disesdenote that at the very time the Commoners were listening to Mr Miall's proposition to dises-tablish the Church of England the Lords were talking about the expediency of abolishing ecclesiastical patronage in the

The subject came up in this way! Lord Rosebery, after adverting to the various secessions from the established church of Scotland in consequence of the right of patronage, inquired whether the Government intended to deal with the law of ecclesiastical patronage is Scotland during the present session. The Dake of Argyle said it was not the intention of the Government to bring in a Bill this Session. As one of the largest ecclesiastical patronage in Scotland, he admitted that lay patronage had been the sole cause of modern secessions and descriptions to the Scottish secessions and descriptions to the Scottish Church, and that the subject ought to be taken up in another Session, either by the Government or by Parliament. Lay patronage probably could not be abolished without compensation, but he should be himself ashamed to receive a single farthing for his patronage. In the House of Lords, on the 5th, Lord Granville announced the receipt of dispatches at the Foreign Office, confirming the intelligence of the safety of secessions and descriptions to the Scottish

A SENSATION

Has been caused in literary and political circles by the first paper in Blackwood for May.

The paper is attributed to Colonel Hamley and is characterised by one of the hyper-critical London papers as the best magazine article that has a carragned. It treats of the power of the page of the pa that has ever appeared. It treats of the possible overthrow of British supremacy, in language full of prophetic warning. It is intimited that the paper will be published in a separate form, and it is suggested that its publication in a cheap pamphlet form 'will produce an effect of which its author never dreamed, perhaps do more to arm England than Mr Cardwell, with his sixteen millions will accomplish.' PULVERMACHER'S SYSTEM is also approved of by an official report of the Academic de Medicine, Paris; Royal Collego of Physicians, I ondoin; and the Imperial Faculty, Vienna, and its curative virtues are confirmed by thousands of private testimolulas of cures effected. (See pamphlet, gratis).

These facts appeal to the good sense of every sufferer to avail himself of this federalic and curative progress, to which the inventor has devoted a lifetime of study and labour, as an ardent disciple of that great benefactor of markind, the fact illustrious electrican, Michael Farandar
